welcome guide

your
Love Story

Every couple has
a love story.

Let me tell yours.

About Me

KMS Photography is a portrait & wedding photographer based out of San Mateo, California. As an award winning photographer, I take much pride and care in each and every snap of my cameras. Every couple is treated separately because I understand how unique and special each wedding is and want to approach your day the best way that represents your love story. My aim is to create a day full of joy and happiness all while capturing your most beautiful moments.

Photographic Style

Documentary-style photography is a balance between formal wedding photography (most photos posed) and wedding photojournalism (absolutely nothing is posed) - documentary style involves “setting the scene” for good images without over-directing the action. This insures that you are in good locations with good lighting and that you look your best, while still feeling completely natural.

Each Other

AUDREY HEPBURN

*be of love (a little)
more careful
than of everything
guard her perhaps only
a trifle less
(merely beyond how very)
closely than nothing.*

Remember love by frequent anguish
(imagine her least never with most memory)
give entirely each forever its freedom
(dare until a flower, understanding *sizelessly sunlight open*
what thousandth why and *discover laughing*)
